Brooks Comes To Niles Next Thursday

Fred Emerson Brooks, who will be in Niles on Dec. 16th, and will give one of his extremely interesting entertainments under the auspices of re-Congregational Church, is the most nighly recommended man in his une in America. The Press and Pulpit Statesmen and orators alike, hall him a wonder—one of the creat him of the lyceum world. Famous a a poet, he is also noted as the most ular author appearing on the olytonin in his own writings. Phenominal health, a clean life and a sunny nature give him a remarkable record.

Brooks has marelous breadth of orator, with a voice ranging from that of thunder to the softness of a summer zephyr. And withal he has a delightful personality and a magnificent presence. Brooks is so commanding and graceful in his delivery that one cannot but be charmed and follow him from the homorous to the pathetic with such delight and pleasure that an hour and a half are gone before you know it. He is a poet, an orator and a genius combined. Here is a characteristic poem by

Mr. Brooks: SUNSHINE Some people have the sunshine, While others have the rain; But God don't change the weather Because the folks complain.

Don't waste your time in grumbling, Nor wrinkle up your brow; Some other soul has trouble, ost likely has it now. When nature lies in shadow,

On damp and cloudy days, Don't blame the sun, good people, But loan a few bright rays. The sun is always shining Above the misty shroud, And if your world be murky,

The fault lies in the cloud. Take sunshine to your neighbor, In all you do and say; Have sunshine in your labor, ad sunshine in your play,

PARENT TEACHERS ASSN. TO GIVE ENTERTAINMENT

The Parent-Teachers Assn. will give a theartre party and entertainment next Tuesday in lieu of the regular December meeting.

The party will be held at the Bell Theatre and several reels of selected notion pictures will be shown. Mr. Stratton and Mrs. Donovan will each render solos. F. V. Weller of the high school faculty wil lhelp out with readings and Ashley Tyson will give one of his extremently entertaining

a musical number.

The price of admission will be but 10c and 20c and will be worth double the price. The proceeds of the enter-tainment will be placed in the treas-ury of the Association to be used in furthering the things that the Associ-

ation is working for.

The school children are now selling tickets to the entertainment and if you have not already secured yours you had better do so at once.

Remember the date of the Alvarado Annexation election, Satthought and expression. He is a gifted urday, Dec. 18, 1915. Vote Yes and make the union of the township complete. Urge your neighbors to vote also. The bigger the vote the more force it will have on those who are seeking to rob this section of its water supply.

CITIZENS TO ELECT A NIGHT WATCHMAN

A meeting of Niles citizens and business men will be held in the office of Jones & Ellsworth next Wednesday evening for the purpose of electing Thompson Passes Lie a night watchman for the coming year and to arrange for the payment of his salary.

This is an extremely important meeting, for if the matter is not attended to, and the committee should fail to secure sufficient subscribers to insure the payment of his salary, the Niles, Cal., watchman would have to be discharged, and Niles at night would be at the an answer to the statement made mercy of crooks that might come to Will Jeffries in last week's issue of town and if a fire should break out at the Township Register. night there would be no one to sound great headway.

day night meeting.

Take in the stringer flow,
And Heaven will show what flowers
From seeds of kindness grow.
The following persons have subscribed for from one to four tickets each at \$1.00 per ticket.
Chas. L. Hyde, Chas. Trimingham, Sophus Johnson, Rev. F. V. Jones, E. A. Ellsworth, C. R. Vorhies, Mae G. Borges, Stella L. Gordon, Helen S. Baldwin, Miss Garcia, R. O. Moyer, M. E. Duarte, P. S.

Remember the die of the Allow of the first place I came to Niles through the gross misrepresentation of Will Jeffries as to conditions in Washington Township. He led me to believe that the people of the township as a whole heartily endorsed the action the Register was taking in the matter of the Alameda County Water District and that he was voicing the world.

THE ANNEXATON ELECTION

On Saturday, Dec. 18, the question of annexing the Alvarado section to the Alameda County Water District Will be voted on by the electors of the water district as well as by the people of Alvado themselves. In order that the ordinance annexing the Alvarado section shall be approved it will be necessary that a lavorable vote be polled in both the proposed annexed portion and in the water ties amounting to \$40/,811.4), and made a voluntary refund of district itself.

There is every reason to believe that the proposition will carry. But because of this feeling the election should not be allowed to pass without a good vote being polled. The men and women of this township whose prosperity is at stake in the outcome of the contest between the water district and the various water companies, owe it to themselves to do everything in their power to strengthen the bond of union which will enable them to nght off the greedy exploitation of their section. At best our resources are interior to the exploiting corporation and it will need every bit of strength we can throw into the fight to preserve this splendid valley's ruture. Besides the additional strength that the Alvarado section will bring in higher assessed valuation and a consequent lower tax rate, the union will prevent any future inroads upon our section. li will also complete the union upon a common community interest.

Alvarado would have been included in the district originally had it not been for the attempt to place that section in the Uakland district. When our fight was being made to secure the passage or a water district law, and when the preliminary investigation on the water supply was initiated by public subscription, Alvarado was promised that if the Oakland water district scheme was beaten, we would take her into our district. Every consideration for the felfare of our township demands that Alvarado be annexed by a hearty

The size of the vote polled on Dec. 18, will be closely watched by the predatory enemies of this district. If the vote is light or the sentiment divided it will eagerly be made use of by the enemy. On the other hand if the vote is impressive it will strengthen our fight in all quarters. Every man and women in the district ought to mane a special effort to get out a good, big vote. Let us show the savarado people that we want them in with us and let us at the same time show the Oakland and an Francisco exploiters that we are still a united community in defense of our rights.

The citizens of the district should not leave the matter of getting out a good vote to the officers of the district. These officers have arready given freely of their time for the cause. The directors have undermine the distress fight. They are doing everything they can to sateguard the future of this section and the electors should strengthen their hands and by doing so strengthen their own fight.

Let every voter take a few minutes away from his or her work on Dec. 18, and vote for annexation. Between now and election or with others. Get out a good vote. It is your fight.

The big Exposition is over. The event toward which the whole as looked for the past five years has passed into history what shall we do? Of course there is only one answer. Do we can with the resources at hand and pave the way to. We are a rural section and for years will remain so. But we have great advantages as a in location, climate, soil, etc. We haven't great tracts to be annexed can vote at the Alvarado precinct. Lo seil. Our great problem is to bring up to a higher of emciency the land alrady being cultivated and to find better marketing what we do produce. There are educational as as social problems to work out. The past five years have brought many desirable political reforms that make possible greater progess. Let us take hold of the splendid situation that we enjoy mprove it. Let us make this part of Alameda County one of Less rural section in California. The Press is anxious to help When the European war is over and the slides in the canal quit sliding there is going to be a big increase in the about San Francisco bay; let us quit waiting for things mappen to us. Let us do something to bring our section up to the standard of attractiveness of other section about the bay. We have the opportunity. Let us get busy.

INJUNCTION SUIT UP TO-DAY

That the directors of the Alameda County Water District are spaing no effort to bring the injunction suit against the Spring Valley Water Co. is shown by their efforts during the past two weeks to secure a temporary injunction against the company in order to prevent the storing of flood waters in the Calaveras dam. Last'Friday the suit was postponed for another week. It will be pressed by the Attorney for the district and every effort will be made to force the suit. Eery excuse for delay is put forth by the company and it is evident that they are playing for all the time they can secure. That the company will attempt to store water this winter is hardly before the style changes; also standard armor plate, all blow holes likely. That they will hurry the completion of the dam in the of which are warranted to be carefully puttied up before delivery; only \$1.75. It pays the private manufacturing concern \$3.06 for meantime is taken for granted.

The district is ready to go to trial and is anxious to have a settlement of the case by the courts. If the company can succeed in indefinitely postponing the case, it hopes to unload the problem at the roll-call of those present when it was organized: on an Francisco or to break down the fight in this district against it. It looks as if the final show down in the fight is near at hand. H. Porter (Morgan); Charles Steele (Morgan); Paul D. Cravath

STILL FIGHTING RIPARIAN TAX

It is trying to unload these rights upon the city of San Francisco at a big valuation bubt it does not wanttopay taxes on them to the county it is robbing and which it is perfectly willing to ruin entirely. the building of a big mansion in San Mateo county.

The voters should remember these facts when the election comes next week.

SNYDER WELL GOES DRY

The well on the Snyder place in Niles went dry last week. This is the first time that this well has gone dry. Following an unusually raniy season such as last year this fact impresses on us what will surely happen it the tlood waters are stored and diverted.

FIRST FLOOD OF SEASON

The heavy rain of last I riday brought the first flood water of the season. It came principally from the Calaveras watershed.

STATE COMPENSATION INSURANCE

California nas been in the State compensation insurance business since January 1, 1914. The San Francisco Star has been making a special examinatin into the workings of the State insurance lund, and finds that on September 30, 1915, the net premiums amounted to \$1,007,900.20, which, with the legislative appropriation of \$100,000 and interest amounting to \$31,000.01, makes a total of \$1,179,000.01 received. The management has paid out \$150,009.40 for expenses and salaries, including compensation expenses; \$213,118.01 in compensation an distalliory medical payments for the benefit of injured workmen; deducted \$138,932.70 for unearned premiums; made a statutory reserve for outstanding habili-15 per cent 10 policyholders of the premiums earned in 1914, amounting to \$12,262.62.

That leaves \$206,876.03, of which \$100,000 represents the original appropriation, and \$100,070.00, a net accumulated unappropriated surplus. Thus the State compensation insurance fund, arter paying operating expenses and the compensations awarded unuer accident claims, and after returning to emplopers 10 per cent of the premiums they have paid, has the original capital or \$100,000 appropriated by the State, plus \$244,001.48.

When the statutory time for 1914 reserves expires, the policyholders will receive additional retunds, which will probably amount to 20 per cent and, with the 10 per cent rerund arready made, will be a total or about 43 per cent of the first years business. Dince the premiums charged at first were uniform with those charged by private companies, it is no vain boast to say that the 43 per cent retund represents the difference between efficient public management and what is said to be emcient private management. le should ue said, too, that the expense ratio of the State compensation insurance business is very low as compared with that or private companies.—Stockton Record.

The Township Register last week came out in an editorial advocating the annexation of the Alvarado district. It also claimed the proposed/annexation move was forced by the Register's attempt to recall three of the Board of Directors.

The past few weeks ought to have convinced Mr. Jefferis that he can't force anything very much in this township. The lardy and ungracious yielding or the Register to the senument of the people or the Water District is significant. Even the Spring Valley Water o. s organ has been forced to recognize the force or public sentiment. Flaving turned tranor at a critical time and having done its worst to betray the people of the district, the Kegister is now endeavoring to work itself back. It will make nittle difference in the result of the election whether the Register supports or opposes annexation. It will require a long period of probation to restore the Register to public confidence.

There is only one regrettable feature about the Panama-Pacific exposition after a ten month stelebration of the opening of the Panar Canal and that is that the pesky canal closed user so unceremoniously while we were still celebrating its opening.

HATS OFF TO SAN FRANCISCO

The big exposition has closed. It has been a great success and will undoubtedly prove a great benefit to the entire State. San the matter over with your neighbors and get them to talk rancisco has certainly earned the admiration of the world. She deserves all the praise that can be bestowed upon her. Her magnificent achievements of the past nine years in rising from and then her splendid triumph in so successfully carrying to a glorous success a world exposition entitles her to the highest honors any city has ever earned.

> Don't forget the date of the Alvarado Annexation election next Saturay, Dec. 10. Any qualified elector of the Water District whose name is on the great register can vote at the election. The precincts within the district are the same as at the election for the tormation of the district. Only those in the territory proposed

> Talk the election over with your neighbors and urge them to get out to vote. The bigger the vote the more impressive on the enemies of the district.

WAR PROFIT PATRIOTS By United States Senator Robert M. La Follette

If a man dares to intimate that he is unwilling to swallow the whole program for prepardness-A Big Army, a Big Navy, Big Contracts for Munitions of War- that man is a fool or a coward or

Who are the real Patriots of the Country?

enormous profits out of the European War, as were never before realized in the same brief period since time began.

They are the Morgans, the Rockefellers, the Schwabs, the Garys, the du Ponts, and their prototypes, who are back of he thirty-eight corporations most benefitted by war orders, the stocks of which have increased more than a thousand million dollars above their highest market value before the war.

They are the dollar-scarred heroes who organized the Navy League of the United States!

The high purpose of this noble organization is to boom big appropriations for a "sufficient number of superdreadnaughts" or the new winter design, the contracts for which must be signed up also other munitions of war with latent defents guaranteed to remain latent until after acceptance by the Government.

God bless the Navy League of the United States! How we thrill

L. A. VIUEX, Niles, Cal.

United States! Owning newspapers, periodicals, and magazines, and controlling through business relations the editorial good will of many others, they will be able to render powerful but disinterested aid in the great propoganda for prepardness which is now flooding the country at high tide as Congress is about to meet!

At present these patriots are devoting their great talents for the making of public opinion for a big standing Army and a big Navy. This is most immediately necessary. Iney have been enrarging their manuracturing establishments and building many new plants to supply the urgent needs of the Allies at 800 per cent, profit. But even the prepardness suckers of the country can readily see that there will came a day when the Allies will be unable to porrow any more American dollars with which to buy high-priced American munitions of war.

In order to keep the enlarged and the newly constructed American plants running day and night, and their great stock issues soaring steadily higher, we shall sorely need good fat Government conracts with Uncle Sam.

Hence the necessity of preparing for prepardness!

We have some mean, small, sordid, unpatriotic people in this country so discourteous as to suggest that the Government could save large sums of money by building the battleships in our own They are the glorious group of millionaires who are making such shipyards and manufacturing powder and shrapnel and guns in Government-owned and operated arsenals and plants. But such people should be suppressed. They are never satisfied; a disloyal ow-down lot of malcontents.

There is too much of this sort of thing already. These insurgent rebellious meddlers have aiready gotten the Government into the undignified position of interiering with the private business and he prosperity of patriots.

The Government arsenal at Philadelphia is to-day making a 3-8 inch common shrapnel at a cost of only \$7.94, while at the same time it is paying private firms for the identical shrapnel exactly the Government makes a 3-inch finised shrapnel case at a cost of tor \$2.92. For this same fuse it pays the private maker just \$7.00. The Goevrnment makes a 3-inch finished shrapnel case at a cost of the same article.

The Government makes a gun carriage for a 3-inch rifled gun at exactly \$2,510.60. It pays the private manufacturer \$3,398.82 for the same gun carriage. The Government has manufactured cassions for \$1,128.67 and it has paid private concerns \$1,744.10 for the same cassion. The Government filled one of its own orders for ammunition at its own arsenal which cost \$1,900.064. It saved on this order \$979,840, for it would have cost exactly \$2,879,904 if filled by private manufacturers.

This is an outrageous showing. It is a rank and dangerous inereference with the private rights of the "best people".

Of course the Government can build its battleships and manufacture its own munitions of war in Government-owned and operated shipyards and plants, much better and more economically than it can hire it done by the Patriots.

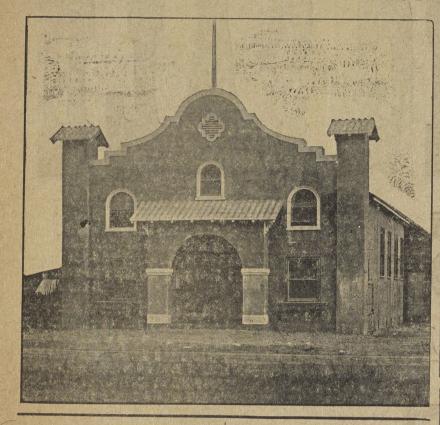

But what of that! The Government has plenty of money-or an get it out of the people. We need Simon-pure parriots like Morgan and Schwab, and Gary-even if they do come high.

ANOTHER BIG DANCE AT HOLY GHOST HALL

The people of the parish have not-

NOTICE OF ELECTION ALAMEDA COUNTY WATER DISTRICT

Pursuant to the ordinance of the Board of Directors of the Alameda County Water District, made and entered in its minutes on the 13th day of November, 1915, notice is hereby given that an election will be held in the said district and in the territory proposed to be annexed to such dis trict on the 18th day of December, 1915, for the purpose of determining whether or not such territory shall be annexed to said Alameda County Water District, and whether the ordi nance of the Board of Directors of such district to that end be approved. The boundaries of the territory pro-

posed to be annexed to said district are as follows: Commencing at a point on the West

meda County, California, where said Westerly line is intersected by the center line of County Road Survey No. 556, as said center line of said Survey No. 556 is shown in the notes of said Survey and filed in the County Surveyor's Office of Alameda County California, at page 329 of Volume No. 2 of Survey Records; said center line of said Survey No. 556 being also a Northern boundary of the Alameda County Water District as said District is described in an Order of the Board of Supervisors of Alameda County State of California, and entered in said Board of Supervisors' Minutes on the 25th day of November, 1913; thence running from said point of commencement North 42 degrees 11 minutes West, and along the Westerly boundary of the Right of Way of the Central Pacific Railway herein before mentioned, (as said boundary is described in those certain next herein referred to instruments, viz. F. William Meyer to Western Pacific Railroad Company, dated July 16th, 1869, and recorded July 17th, 1869, in Book 41 of Deeds at page 414; George Emerson to Western Pacific Railroad Company, dated July 3rd, 1869, and recorded July 17th, 1869, in Book 41 of Deeds at page 410; Christopher Griswold to Western Pacific Railroad Company, dated August 2nd, 1869, and recorded October 12th, 1869,, in Book 49 of Deeds, at page 132; Andrew Paterson to Western Pacific Railroad Company, dated June 30th, 1869, and recorded July 17th, 1869, in Book 41 of Deeds, at page 411; Cornelius Mohr to Western Pacific Railroad Company dated July 2nd, 1869,, and recorded July 17th, 1869, in Book 41 of Deeds, at page 407; Andrew Himmelman to Western Pacific Railroad Company, dated December 2nd, 1870, and recorded May 25th, 1914, in Book 2247 of Deeds, at page 347; the six deeds last above referred to and the records thereof are all severally and singly parts of the records of the Office of the County Recorder of Alameda County, State of California;) to a point in the Easterly line of County Road Survey No. 314, as said Survey is shown in the notes on file in the office of the County Surveyor of Alameda County, California, in Volume No. 2 of Survey Records, at page 75; thence following the Easterly line of said Survey No. 314, South 44% degrees West 53.20 chains more or less, to the point of intersection of said line with a boundary line of that certain parcel of land as said parcel of land is described in that certain indenture made November 22nd, 1871, between Henry C. Hyde and Herman Hadeler assignees in bankruptcy of Henry D. Ellerhorst and A. C. Teitman voluntary bankrupts, parties of the first part, and Andrew Himmelmann, party of the second part and recorded May 15th, 1872, in Book of Deeds No. 78, at page 446, Alameda County Records; said boundary line of said parcel of land being that described in said indenture as the Southerly line of the lands of Kompf and of Gay, thence along said last mentioned line South 83 degrees 55 minutes West, 39.80 chains to the Southwest corner of the lands of Kompf as said corner is described in said indenture, said corner being also the Southeast corner of the land of Hess; thence along the South line of the land of Hess, North 88 degrees 20 minutes West, 8.50 chains to the Northeasterly corner of a certain parcel of land containing 381.54 acres as said parcel of land is described in that certain indenture last hereinabove referred to; thence along the Northerly boundary of said last mentioned parcel of land, North 88 degrees 20 minutes West, 46.58 chains to the Northwesterly corner thereof and a point on the Easterly line of Hiffner; thence along the Easterly line of Hiffner as described in said indenture, South 0 degrees 30 of intersection of said line with the boundary line of the Rancho Arroyo de la Alameda, as said boundary line of said Rancho is shown on that certain plat entitled "Plat of the Rancho Arroyo de la Alameda finally confirmed to Jose de Jesus Vallejo", etc. and recorded May 5th, 1858, in Book A of Patents, at page 70, Alameda County Records; said point of interof the survey lines numbered 115 and 1-4 degrees West 5.00 chains, North tedville to Niles; thence

same", and recorded October 27th, Surveys 77 and 78 of the said Ex-Mis-Northerly corner of the lands of Bia- erly line of Ex-Mission Survey 61 Alameda County Records; thence fol-iowing the Westerly boundary of said last mentioned Rancho, North 41 de grees 20 minutes West 28 21 chains grees 20 minutes West 28.81 chains, North 32 degrees 20 minutes West to the intersection with a Southerly line of Ex-Mission Survey 63 to Station 5 of said Ex-Mission Survey 154 to the Southerly of M. B. Sturgess; thence Southerly in the Northeasteriy line of said Ex-Mission Survey 154 to the Southerly corner of the lands formerly of M. B. Sturgess; thence Southerly in the Northeasteriy line of said Ex-Mission Survey 154 to the Southerly corner of the lands formerly of M. B. Sturgess; thence Southerly in the Northeasteriy line of said Ex-Mission Survey 154 to the Southerly corner of the lands formerly of M. B.
